Donghua University was my first choice when I first came to Shanghai, and now I can't imagine going to another university. The teachers are very professional and caring. I have learned a lot and my Chinese have improved greatly with the help of the teachers.

I really love the environment in Donghua University. It's all very comfortable and welcoming. All the facilities they provide for us students are definitely suitable for studying. This is my second home, my safe ground in China.

-----TABITHA (薛慧淑), Indonesia

I have been at Donghua University for nearly one and a half years. At first, my Chinese was not very well and I met lots of difficulties. However, under the assistance of teachers and friends, I overcame those difficulties in the end. With the patient guidance of the teachers, my Chinese had a great enhancement within a short period of time. It is not easy to study abroad, but I have a fulfilling and meaningful life in Donghua University.

-----CHOI SEOK HOON (崔硕勋), Korea

It has been one year since I studied at Donghua University, however, with diligent professors and diversity of students, I'm for sure that I eventually found a proper place for commencing to learn my third language within an undergraduate degree. I love to learn Chinese with my foreign friends, and I do have more enthusiasm to communicate with the locals.
